DIGGERS™ Driveway Cleanup

DESCRIPTION

DIGGERS™ Driveway Cleanup is a powerful water-based cleaner designed to remove oil, grease, dirt, grime, moss, algae and other driveway soils from materials such as concrete and pavers. Will not damage or remove pigments.

TYPICAL USES

- Removes typical driveway soils from concrete and pavers.

FEATURES

- Biodegradable
- Water-based
- Acid and caustic free

APPLICATION

- For prolonged use, wear gloves and avoid contact with eyes. Pour 1L of DIGGERS™ Driveway Cleanup into a bucket and dilute with 5 parts water for general cleaning. For tough jobs, use the product neat without dilution.
- Brush or spray the solution liberally onto driveway concrete or pavers. Allow it to soak for a few minutes to remove oil, grease, dirt, grime, moss, algae and other driveway soils. Hose off with water.
- For heavily soiled areas, repeat the application or scrub to remove stubborn deposits. On certain surfaces, particularly porous ones like concrete, oil can soak in deep, so some staining may remain even after cleaning.

SAFETY

Follow safety directions on the product label. For prolonged use, wear gloves and avoid contact with eyes. If swallowed DO NOT induce vomiting. Give a glass of water and seek medical attention. If in eyes, hold eyelids apart and flush the eye continuously with running water. If skin or hair contact occurs remove contaminated clothing and flush skin and hair with running water. Additional information is listed in the Safety Data Sheet.

TYPICAL CHARACTERISTICS

Appearance purple clear liquid
pH approx 5
Specific Gravity 1.0
